

# WATERTIGER™

## Whole House Water Treatment Systems

Watertiger's various whole-house filtration systems for city water will provide you with better smelling, tasting, and healthier water for your entire home. These systems will eliminate harmful chlorine and THMs, further protect you against micro-organisms and provide ultrapure drinking water will provide you with the following benefits:

- Softer hair and skin from your shower and bath
- Reduce symptoms of asthma and eczema (such as swimming in chlorinated pools)
- Reduced exposure to common THMs from most water supplies (such as chloroform)
- Protection from micro-organisms
- Remove unpleasant tastes/odours from over chlorination
- No chemicals added
- Eliminate your bottled water
- Prevent corrosion of piping and staining on fixtures
- Calcite RO filter or Ultrafiltration will leave you with the minerals and alkalinity you want in your drinking water

# How Whole-House filtration works

Watertiger's Whole House filtration packages utilize the following components:

- 1) Chlorine and THM removal through **activated carbon filtration**
- 2) pH neutralization and corrosion control via **Calcite addition** (optional)
- 3) Fine sediment filtration with a **5 micron sediment filter**
- 4) Micro-organism protection with **Ultraviolet (UV) disinfection**
- 5) Ultrapure drinking water via undercounter **Reverse Osmosis or Ultrafiltration**

Study after study is now showing that a significant amount of exposure to chlorine and carcinogenic byproducts is happening in our daily shower. The warm, enclosed shower environment causes chlorine to vaporize – it is then breathed straight into our lungs and absorbed through our skin. Chlorine also causes or worsens common conditions such as asthma or eczema.

Package	Stage 1	Stage 2	Stage 3	Stage 4	Priced From*
Gold	Self-cleaning carbon and neutralizing filter	4.5" x 20" 5 micron sediment filter	Ultraviolet disinfection	Undercounter Drinking water system	\$2,290.00
Silver	4.5" x 20" 5 micron sediment filter	4.5" x 20" carbon block filter	Ultraviolet disinfection	Undercounter Drinking water system	\$1,320.00
Bronze	Carbon shower filter cartridge	Undercounter Drinking water system	n/a	n/a	\$475.00

\*Does not include installation

\*\*Contact our office for options for private water supplies. We have systems for Iron/Manganese staining, Hardness, Silt, Arsenic, Tannins and everything else!
